

Mohamed Nader Rashad

FRONT END DEVELOPER

I am an front end developer seeking a part-time position in the field of front end , where I can apply my knowledge and skills for continuous improvement.

SKILLS

- Develop and maintain web applications using React.js
- Collaborate with designers and back-end developers to implement interactive and responsive user interfaces.
- Write clean, efficient, and maintainable code following best practices and coding standards.
- Optimize applications for maximum speed and scalability
- Stay updated with the latest trends, technologies, and best practices in front-end development..
- Collaborate with team members in an Agile environment to deliver projects on time.

EDUCATION

COMPUTER SCIENCE

Student at cs

University of MET| 2022 - 2026

EXPERIENCE

PROJECT E-COMMERCE

Your challenge is to build out this product list project that includes a functional cart and get it looking as close to the design as possible.

You can use any tools you like to help you complete the challenge. So, if you have something you'd like to practice, feel free to give it a go.

We provide the data for the products in a local data.json file. So you can use that to populate the UI dynamically if you choose.

LIVE DEMO

AGE CALCULATOR APP

Your challenge is to build out this age calculator app and get it looking as close to the design as possible.

You can use any tools you like to help you complete the challenge. So if you've got something you'd like to practice, feel free to give it a go.
